

WACHAU TRAIL 2026

WACHAU77

YOUR PARTICIPANT GUIDE

Through the night. Across the Jauerling. Back to yourself.

DISTANCE	ELEVATION GAIN	DATE	START TIMES	TIME LIMIT
77 km	+3,191 m	2.-3.10.2026	22 04	19-25 hrs

Life is not meant to be mastered.

It is meant to be experienced.

Nature reminds us of this.

And that we need to be nothing other than ourselves.

BE YOU.

WACHAU77

Welcome to your journey

Dear participant,

77 kilometres through the Wachau is more than a long distance. They take you through the night, over the Jauerling, through forests and vineyards - and sometimes through your own thoughts.

Whether you're hiking, walking, or finding your own personal path in-between, WACHAU77 isn't about comparing yourself to others; it's about staying attentive, taking responsibility for yourself, and step-by-step going your own way.

There will be moments when everything seems easy, and probably moments when you wonder why you've embarked on this adventure, and maybe those moments remind you of what's inside you.

This companion contains all the important information for your preparation and your time on the course, so please read it carefully and make your decisions with the experience and personal responsibility that a distance like the WACHAU77 requires.

I am very happy to welcome you at the start in Emmersdorf and to be able to receive you later in Krems at the finish.

Be confident in your path. Stay attentive. And with all the challenges, don't forget to experience this special day.

BE YOU.

IMPORTANT

The calculated arrival times are estimates for guidance. Weather, trail conditions, breaks and your personal pace may cause significant deviations.

Time limit

Runners have a total of 19 hours from the start at 04:00 until the regular closing time at 23:00. There are no intermediate cut-offs; the opening hours of the aid stations remain relevant for your care.

PREPARATION

Mandatory equipment and personal checklist

Mandatory equipment

- Headlamp
- Spare lamp or suitable backup light
- Your own cup or soft flask
- First-aid kit
- Emergency blanket
- Mobile phone
- Waterproof jacket

PERSONAL RESPONSIBILITY

Mandatory equipment will not be checked. We rely on your experience and personal responsibility. Weather-related additions will be announced no later than the day before the event.

Trail running shoes are not mandatory for hikers; suitable and well broken-in hiking shoes are possible.

Check before arrival

- Download the current GPX file and save it offline.
- Fully charge your mobile phone and navigation device.
- Check the latest participant email and weather forecast.
- Have the collection QR code for your race bib ready.
- Check shuttle booking or connection of bus line 715.
- Prepare your own food, filled water bottles and personal medication.
- Pack a change of clothes in your finish bag; do not include valuables or fragile items.

ON THE COURSE

Navigation, course markings and fair play

GPX and marking

The WACHAU77 is completely marked with tapes - partly with reflectors - and indicative panels, and no spray markings or stickers are used.

- Current GPX file: www.wachautrail.at/gpx
- If the route changes, an updated file will be sent by email. Only the most recently supplied file is binding.
- Even on a marked course, every participant remains responsible for their own navigation.

If no more marking is visible

- Stop and do not continue by guesswork.
- Check your position and the route using the GPX file.
- If necessary, return to the last clearly identifiable course marker.
- If possible, report missing or obviously removed course markings to race control.

Fair play

- Accompaniment and pacing are permitted. Pacers may not use the food and drinks at aid stations.
- Personal support is permitted only at publicly accessible locations and at aid stations.
- Poles are permitted. Dogs are permitted for hikers only.
- Headphones are permitted but must be removed at road crossings, on public transport, at aid stations and whenever crew members give instructions.
- Respect nature, residents, landowners and other trail users. Do not leave any litter behind.

SAFETY

QR timing, emergencies and withdrawal

QR start and QR finish

- Your race bib has two QR codes labelled “Start” and “Finish”.
- Scan the start QR code yourself immediately when you actually start. Race control will not prompt you.
- Scan the finish QR code immediately after crossing the finish line.
- Both scans are required for a recorded result. Without a finish scan, you will be recorded as DNF.
- If you forget the finish scan, you may submit the time recorded by your GPS watch for manual entry.

NO LIVE TRACKING

With WACHAU77, there is no GPS tracker and no public live tracking link.

Emergency

- The phone numbers for race control and mountain rescue are printed on your race bib.
- If you need medical assistance, contact race control. Mountain rescue is on standby and the Red Cross has been informed.
- In a life-threatening emergency, call the European emergency number 112.

Early withdrawal

- Always report your withdrawal to race control, either in person or by phone.
- Telling an aid-station team is only sufficient once they have explicitly confirmed that the information has been passed to race control.
- There is no guaranteed return transport. Mountain rescue or the emergency medical service will provide transport only when medically necessary.
- If you withdraw, do not scan the finish QR code; your result will be recorded as DNF.

AFTER YOUR JOURNEY

At the finish and finisher services

Immediately after finishing

- scan the finish QR code.
- Accept the Finisher Medal.
- Use the finish food.
- Pick up free drink at the bar.
- Pick up transported luggage.

In the finish area

- Finish catering is reserved exclusively for participants.
- Family and friends are welcome to use the event marquee, finish area and bar. Additional drinks must be purchased.
- Your finisher certificate can be downloaded from your personal Time2Win account.
- Finisher shirts are issued on Friday at central race bib collection or at the finish - not at the start locations.

After the official finish cut-off

The regular closing time is 23:00, when the dismantling starts, and the team stays on site until 24:00, when it is known that someone is still on the course, they are serviced or contacted and arrange a pick-up if necessary.

ARRIVAL AFTER 23:00

Those who complete the entire route after the regular finish will still receive their finisher medal and recognition for the distance they have mastered, but the performance will not be considered as a regular finish within the given time.

One final note

This companion should give you security and guidance, and your preparation, your attention and the responsibility for your own decisions remain crucial.

See you at the finish. · BE YOU.
